Sarah Polley

Senior Product Designer | Dublin

EXPERIENCE

Senior Product Designer
Workhuman

October 2019 - Present

Working in a cross functional team of designers, researchers, and managers, I am responsible for bringing our customers brand's to life on our SaaS platform – I specialise in creating impactful and effective employee recognition programs for some of the world's largest companies and brands. My daily responsibilities include:

- *Translating customer branding into beautiful, modern, engaging UI design solutions.*
- *Applying strong design, conceptual, and problem-solving skills to deliver creative ideas for business requirements.*
- *Executing design solutions from ideation to high fidelity work.*
- *Communicating and presenting design ideas clearly to stake-holders.*
- *Working with development teams to assess the feasibility of implementing design-led solutions.*
- *Providing continuous support during implementation.*
- *Communicating design decisions and providing feedback to other designers..*
- *Participating in broader design team goals and OKR's to help improve our processes and increase company wide visibility.*
- *Mentoring interns and junior designers.*
- *Working with the wider product design and platform team to assist in the creation and implementation of our internal design system*
